Litigation Associate Position

We are litigation lawyers in Vancouver focused on the resolution of complex business disputes. Our work is often innovative and sometimes on the leading edge of the law. We were counsel on *Google v. Equustek*, 2017 SCC 34, the leading case in the world on the court's ability to control global content on the internet.

We are now expanding with an eye to commencing a series of novel class actions that will contribute social value to the world. We are looking for an aspiring litigator who can contribute to our work by:

- Providing thorough and insightful legal analysis, on a wide range of topics, expressed in clear writing.
- Taking responsibility for running their own files, including direct contact with clients and opposing counsel. These are learnable skills and we are prepared to teach you how to do this.
- Appearing in court, as soon as you are ready. We believe in sending associates to court as early as you are comfortable with.

This is a full-time position but we would consider part-time for the right applicant – we recognize that talented women in particular may be excluded from legal careers because of the challenge of balancing family and work in a traditional law firm model.

We are genuine and decent people. We treat everyone with respect, including our clients, opposing parties, and each other.

Our search is not focused on level of seniority, but on finding the right person to join the team.
